## DETAILED ACTION

### *Claim Rejections - 35 USC § 102*

1. The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

2. Claims 32-35 are rejected under 35 U.S.C. 102(b) as being anticipated by March (U.S. Patent No. 3,958,560).

March discloses a contact lens 13 having an infrared radiation source and a thermistor bolometer for the infrared radiation detector. In column 2 lines 46-54, March discloses alternative arrangements for the emitter and detector including using visible light to measure the change in refractive index by an interferometer. It is inherent that any system using visible light requires a photodetector. Thus, March has disclosed a photodetector coupled to the contact lens. The measured signal is sent by a transmitter 22 to a receiver 23 comprising an amplifier and a digital readout device. The digital readout device inherently has an electronic circuit (controller) to control the display of the readout device.

### *Allowable Subject Matter*

3. Claims 1-3 and 5-31 are allowed.

Art Unit: 2851

### *Conclusion*

4. Applicant's amendment necessitated the new ground(s) of rejection presented in this Office action. Accordingly, **THIS ACTION IS MADE FINAL**. See MPEP § 706.07(a). Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire **THREE MONTHS** from the mailing date of this action. In the event a first reply is filed within **TWO MONTHS** of the mailing date of this final action and the advisory action is not mailed until after the end of the **THREE-MONTH** shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than **SIX MONTHS** from the date of this final action.
